

## **MY 13**

# Metalworking evaporative lubricant

#### Description

Fast-evaporating fluid made up of hydrocarbons reinforced with extreme-pressure, anti-wear additives as well as smoothening agents. Guaranteed chlorine-free and free of animal fat. Imperceptible dry film, practically free of sticky residue and white traces. Can be bonded, welded, and painted.

### **Applications**

For deforming difficult parts. For all cutting, stamping, profiling, folding, cambering, and light stamping operations on all types of metals (ferrous metals, stainless and coated steels, cuprous, bronze, brass, aluminium, and its alloys) of medium to large thickness.

#### Technical data

Flash point: 36°C
