

THERMOLUB SP

High temperature copper assembly compound

Description

Smooth compound with copper that facilitates use. Does not dry over time. Completely insoluble in water, steam and diluted acid. Perfectly adapted to a large number of plastic injection applications.

Applications

Seizure and corrosion prevention for mechanical parts and assembly of screwed assemblies, at very slow speeds and high temperatures. Lubrication of valves, slides, etc.

Technical data

Greasy lubrication: -20°C to +140°C

Dry lubrication: +1200°C

NLGI Grade: 1
